New Chemical Aids Farm Production

Many Weed Control Problems Answered

Recent research results in killing weeds in growing crops, in killing insects, diseases and aging crops, in controlling the growth of the plant itself, and in the destruction of undesirable vegetation are pointed to by the chemical industry as the beginning of a new era in agriculture.

Frequent Cane Adds To the Life of Shoes

Such materials as cotton and wool, which are used in making shoes and clothing, are produced by plants. Other products of plants, such as rubber, resins, waxes, oils, starches, sugars, and cellulose, are also important in the manufacture of shoes and clothing.

Well established also is the fact that plants are the source of many drugs and medicines. Recently, however, there has been much research done in the field of chemotherapy, which is the treatment of disease by chemicals. Sulfa drugs, penicillin, streptomycin, and many other chemicals are now being used in the treatment of many diseases, including such important ones as pneumonia, meningitis, syphilis, gonorrhea, and tuberculosis.

Since plants, whether wild or cultivated, are the source of many chemicals, it is important that they be protected from insects and diseases. Insects and diseases cause tremendous losses each year. Insects alone destroy about one-seventh of the entire crop of the United States each year. Other enemies of plants are the fungi, bacteria, and viruses which cause plant diseases. Weeds are also a serious problem in crop production. They rob the soil of moisture and plant foods, and they shade the crops, thus reducing the yield. Weeds are also a source of many insects and diseases.

Control Moss

Timber owners in many sections of the South are troubled with moss. It forms a thick covering on the ground and on trees, and it prevents the growth of young seedlings. Moss also makes it difficult to get around in the woods without considerable effort. Moss can be killed by spraying with a solution of copper sulfate and water. Spraying should be done in the spring or early summer when the moss is growing actively. Two pounds of copper sulfate dissolved in 10 gallons of water will kill moss on about 100 square feet of surface. Spraying should be done on a clear day when there is no danger of rain for at least 24 hours. Two applications may be necessary to kill the moss completely.

Spray to Kill Weeds

Spraying with chemicals is one of the most promising methods of killing weeds in growing crops. Spraying is done by applying a fine mist of chemical solution to the plants. Other methods of weed control are cultivation, mowing, pasturing, and hand pulling. Well established also is the fact that plants are the source of many drugs and medicines. Recently, however, there has been much research done in the field of chemotherapy, which is the treatment of disease by chemicals. Sulfa drugs, penicillin, streptomycin, and many other chemicals are now being used in the treatment of many diseases, including such important ones as pneumonia, meningitis, syphilis, gonorrhea, and tuberculosis.

Pasteurization of Eggs Improves Quality

New Method an Aid To Egg Storage

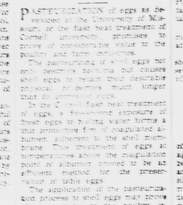
Pasteurization of eggs as developed by the University of Maryland, or the flash heat treatment of eggs, is the latest development in the industry of conserving eggs for the consumer, according to the Virginia Farm Bureau.

The pasteurizing of eggs not only preserves them, but changes their physical condition so that they can be used for cooking purposes after being stored much longer than is possible with fresh eggs.

In the flash heat treatment of eggs a thin coating of albumen is formed around the yolk and white of the egg. This coating is formed by the heat and prevents the yolk and white from mixing when the egg is broken. Eggs treated in this manner will keep much longer than fresh eggs.

Pasteurized eggs are also more successful for angel food cakes and other products where the shortening of fats and whites-of-eggs is necessary. Pasteurized eggs are also more successful when used in making mayonnaise and salad dressings. Pasteurized eggs are also more successful when used in making custards and other products where the egg is heated after cooking.

Pasteurized eggs are also more successful when used in making custards and other products where the egg is heated after cooking.



Cornell Method of Pasteurization.

Dairy Curing Bay Safe And Improves Quality

Washing hay while the sun doesn't shine has been described by farm experts as farmers who have built electrically operated hay driers, the first of which was built in the state in the year.

The installation consists of ground-level ducts, built in the new floor

Air Circulation is Now

through which air is forced into and upward through the hay by a blower powered with an electric motor. Where a number of units are available by a single motor.

The use of the forced ventilation system enables farmers to move their hay after cutting, before the leaves begin to dry.

Farm Windbreaks Pay Handsome Annually

Planting evergreen windbreaks which will not overtop the farm buildings is advised.

Not only will the windbreak be a protection for the home, cutting down the cold winter winds, it will also improve the appearance of the farm.

In many localities it is possible to secure planting stock which would be of value in the future. Now is the time to get the care that will help you.

Warning to Dog Owners

Notice to All Dog Owners

Put your tag on your dog at once.

Report all stray dogs to me at once.

This is required due to the fact that a case of rabies exists in Campbell County within the past month.

Therefore BEWARE and REPORT to me all stray dogs and put your tag on your dog at once or take it to a dog pound.

It is necessary for me to put to death all stray and stray dogs at once.

My service is free all dogs should be confined for the next several months until this epidemic of Rabies is over.

County Warden for Administration

Oakville

Oakville, March 20.- Mrs. Estelle Adams and Mrs. Thurman Adams were visitors in Lynchburg on Monday.

Mrs. Charlie Harris spent last Thursday night with Mr. and Mrs. C. D. Marsh.

Mr. and Mrs. T. G. Marsh visited the home of E. J. Marsh last night. Mr. E. J. Marsh, who has been ill is improving.

Many of their relatives visited Saturday afternoon with Mrs. W. C. Bass.

Mr. and Mrs. Joe Bryant and Mr. and Mrs. Johnnie Hall.

John Durie spent Saturday in Lynchburg.

The Oakville 4-H Club had a regular meeting at the school Tuesday this week. The Scripture was read by Mary Phelps, followed by singing of "A Prayer. A playlet, Food Difference, was given by Jean Harding, Virginia Lee Hall and Shirley Watkins.

Charlie Durie spent last week and at his home here.

Mrs. Della Doss has two sons home.

We are glad that J. C. Jr. is rapidly improving and that he will soon be well.

Mr. and Mrs. Richard Lee and baby, of Appomattox, Saturday afternoon with Mrs. W. C. Bass.

Mr. and Mrs. Joe Bryant and Mr. and Mrs. Johnnie Hall.

Miss Lillian Spargle, of Lynchburg, was a guest. Mrs. Alfred Garrett last week-end.

Mrs. Willie E. Owen is much better at this writing.

Mr. Tyree Rogers, Mrs. Price and Miss Mildred Smith spent last week-end with Mr. and Mrs. C. B. Smith.

Mrs. F. Smith spent last week-end in Richmond visiting relatives.

Mrs. C. E. Wilkerson visited relatives in Lynchburg and Halifax last week.

Mr. and Mrs. George Page and children visited the home of Mr. and Mrs. Page Sunday.

ny of our wounded are be- nt to U. S. by plane.

Wounded

Mr. and Mrs. A. W. Almond have received word that their son, Howard Almond, U. S. Marine Corps, has been wounded in action on two Jima.

Mr. and Mrs. Walter Bryant, of Cullen have been notified by the War Department that their son, Hugh, U. S. Army, has been wounded. Another son, Sgt. Ivan Bryant was killed in action during the invasion of France. They have another son, James, U. S. Marine Corps, in the Pacific.

Pfc. Fred Hanenkrat, who has been wounded, has written his mother, Mrs. Charles Hanenkrat that he is recovering in a hospital.

Mr. R. A. Hamilton was in this week to tell us of an interesting letter he had received from his son, Hiram, who is in Italy. Hunt tells of going sight-seeing recently in Rome, seeing St. Peters Church and other historic marines. He also wrote of what it means to be getting the Times-Virginian, and what a boost it was to morale. He is fine and recently seen William Mitchell.

Just about the best war photos we have seen were shown us yesterday by Mrs. Joseph Terry, received from her husband, from France. Perhaps we should say the "worst" pictures, for they vividly showed unimaginable destruction to buildings and war material.

George W. Almond, S 1-C, who has been in England and France for several months, is spending a 30-day leave here with his parents, Mr. and Mrs. A. W. Almond.

Ensign Thomas Jennings left Tuesday for Iowa for further training in the Naval Air Corps. He is the son of Mr. and Mrs. G. F. Jennings, of Stonewall.

A. R. Harwood has received an interesting letter from George Cawthorn, who is with General Patton's fast-moving Third Army.

T.-Sgt. Herbert Abbitt has returned to Camp Shelby, Miss., after spending several days here.

Nelson Garrett, U. S. Navy, is now at Little Creek.

DON'T GIVE UP

So you're tired of working, mister, and you think you'll rest a bit,
You've been working pretty steady,and you're getting sick of it.
You think the war is ending, so you're slowing down the pace,
That's what you may be thinking, folks, but it just ain't the case.

What would you think, folks, if we quit because we're tired too?
We're flesh and blood and human, and we're just as tired as you.
Did you ever dig a foxhole and climb down deep inside,
And wish it went to China, so you'd have some place to hide?
While motored "Bastards" packed with guns were circling over head,
And filled the ground around with hot, exploding lead?
And did you ever dig out, folks, from debris and dirt,
And feel yourself all over, to see where you were hurt;
And find you couldn't move, tho' you weren't hurt at all.
And feel so darned relieved that you'd just sit there and bawl?

Were you ever hungry, folks, not the kind that food soon gluts,
But a gnawing, cutting hungar, that bites into your guts?
It's a homesick hungar, folks, and it digs around inside,
And it's got you in its clutches, and there ain't no place to hide.

Have you ever been dirty, folks, not the wilty-collar kind;
But the oozy, slimy, messy dirt and gritty kind that grinds?

Did you ever mind the heat, folks, not the kind that makes sweat run;
But the kind that drives you crazy 'till you even curse the sun?

Were you ever weary, folks, I mean dog tired, you know;
When your feet ain't got no feeling, and your legs don't want to go?

But we keep a-going, folks, you can bet your life we do;
And let me tell you, folks, we expect the same of you

Plan Expansion Electric Lines To Va. Farms

The Virginia Electric and Power Company has developed and filed with the Commissions of Virginia and North Carolina a new accelerated plan for the electrification of rural areas. This plan is designed to cause a widespread extension of electric service throughout the areas served by the Company, just as soon as labor and material become available for making these extensions.

The new plan proposes that, under the conditions stated below, the Company will extend its lines for rural and farm service to the customer's building or to some other delivery point on his premises, relieving the customer of the necessity of having to build any private line, as was so frequently necessary in the past. This new plan should reduce to a minimum delays in getting service, and also should result in a material saving to the farm and rural customer.

The Company will, according to J. G. Holladay, Vice President, construct at its own cost rural extensions worth, in the Company's opinion, the assured monthly revenue from such extension will average not less than $6.00 per mile. The monthly minimum shall not be less than $2.00 per customer. Excess of this minimum charge of $2.00, customers will be served on the regular rates for electric service which apply generally in the area in which they reside.

In commenting on the new plan, J. G. Holladay, president of Vepco, said that "the purpose of the new rural plan is to make electricity available at substantially lowered rates to virtually every farm and rural home in the Company's territory, to the end that greater use of electricity on the farm may not only help to increase farm production but may also lower production costs and generally improve living conditions for farm and rural families."

Because of existing war conditions, Mr. Holladay stated that relatively little construction of new lines is possible at the present time. However, a substantial number of farms can undoubtedly be served even under present War Production Board restrictions and prospective users are urged to apply now for service so that line extensions may be made at once where conditions permit and other extensions may be planned and construction work started on them as soon after the war as the necessary manpower and materials shall become available.

Liberty Chapel

Liberty Chapel, March 20.- We are really having an early spring. Fruit trees, peach, pear, and plum covered with full blown blossoms. Can we expect a full crop of fruit from this early blossoming season? Farmers are busy preparing crop land, and gardening is really in progress in this community.

Mrs. Ossie Ferguson, of Richmond is spending some time with her daughter, Mrs. Wilson Scruggs.

Phillip, the little son of Mr. and Mrs. Wilson Scruggs is out again, after a brief attack of pneumonia.

Rev. and Mrs. W. A Clark, of Appomattox visited friends in this community last week.

Friends of J. C. Moore are glad to hear that he is improving after a serious illness.

Hixburg

Hixburg, March 20.- Mr. and Mrs. Dan Ford and her sisters spent Friday at their home here.

Mrs. T. J. Ligon and Mrs. E. W. Gilliam called on Mrs. J. R. Marshall Friday P. M.

Mr. and Mrs. N. S. Topping spent several days last week with Mrs. C. C. Reaser.

Buddy Carson and Watkins McPhillips spent the week-end with John Carson, at Prospect.

Sam Inge, son of Mr. and Mrs. Billy Inge has been quite sick for several days, but is improving.

Mrs. J. T. Hix and Ruth called on Mrs. H. J. Covington Wednesday afternoon. Mrs. Hix and Miss Mag Hix called in the home of J. R. Marshall, also.

Mrs. E. P. Sears spent Thursday with Mrs. H. M. Marshall.

The Class Thursday night was well attended.

Mrs. H. M. Marshall, Mrs. J. R. Marshall, Mrs. J. T. Hix and daughter, Frances were business visitors in Lynchburg Saturday.

Forest Fire

A forest fire broke out in the Camp area Monday afternoon and burned over some 75 or more acres. Fire wardens had the fire out by yesterday morning.

Extreme caution is asked from the public this year in preventing fires.

Mrs. Garlinghouse

Mrs. Laura Brown Garlinghouse died at her home at Evergreen Wednesday morning, after an extended illness. She was born in Charlotte County July 25,1873, daughter of the late Samuel and Pattie Morton Daniel. In addition to her husband, Mr.Sherman Garlinghouse, she is survived by the following sons and daughters, Robert Phillips, Chester, Pa.; Willie Phillips, Chester,Pa.; Lee Phillips, Chester, Pa.; Callie Phillips, Farmville, Va.; Pvt. Walter E.Phillips, Gen. Lawson Hospital, Atlanta, Ga.; Mrs. A. W. Jones, Chester, Pa.; Mrs. Pat McPhillips, Pamplin, Va.; Mrs. Chas. Redd, Farmville, Va. Also the following step-children: Mrs. Walter Ward, Ontario, Va.; Miss Irene Garlinghouse, Baltimore, Md.; Mrs. Dorothy Hodler, Washington, D. C.; Lonnie Phillips, Keysville, Va.; Herbert Phillips, Richmond, Va. Also the following brothers and sisters. Edwin Daniel, Crewe, Va.; Mrs. Jack Farrar, and Mrs. Willie Wardell, Keysville, Va.; Mrs. Ella Rogers, Charlotte Court House, Va.; Mrs. Junnie Rogers, Keysville, Va. Also by 18 grandchildren and one great grandchild. Her first husband was Mr. John Henry Phillips.

Funeral services will be conducted from the Rocks Baptist Church Thursday afternoon at 2 o'clock. Interment will be made in Keysville Baptist Church Cemetery, at Keysville, Va.

Pre - Easter Services Here

Beginning Monday evening at 8:00 o'clock and continuing during the week, there will be Pre-Easter Services as follows:

Monday, 8 P. M. Subject, "The Triumphant Entry." Rev. H. Frederick Jones, preaching.

Tuesday, 8 P. M. Subject, "The Upper Room," Rev. W. A. Clark, preaching.

Wednesday, 8 P. M., "Cleansing the Temple," Rev. J. Howard Macrae, preaching.

Thursday, 8 P. M. "The Trial of Jesus," Rev. W.R.Reed,preaching.

Friday, 8 P. M., "The Crucifixion of Jesus," Rev. H. Frederick Jones, preaching.

These services will be held at Liberty Baptist Church.

Special music by the choirs of all local churches will be rendered during the Pre-Easter services.

They are union services and all are asked to come and bring their neighbors and friend.

Meeting of Local P.-T.A.

Superintendent of Schools J. A. Burke addressed the regular meeting of the Parent- Teacher Association Tuesday evening in the high school cafeteria. Mr. Burke gave an informative talk on the future plans for schools in Appomattox County. He discussed the desirability of adding another year, either to the elementary grades or in the high school.

Mrs. P. M. Burton, president, appointed Mrs. L. E. Conner, Mrs. W. W. Scott and Miss Harriett Holley as delegates to the district P. T. A. meeting to be held next month at Brookneal. Mrs. Frances Cheatham and Mrs. J. Raymond Lawson will serve as alternates.

Mrs. W. W. Scott, chairman of the cafeteria committee, gave a most satisfactory report on the financial status of the cafeteria, under the management of Mrs. L. C. McKenzie. Mrs. Frances Cheatham reported as chairman of the junior canteen committee.

A nominating committee will present names for new officers at the April meeting.

Special session of Assembly may adjourn Saturday.

Perfect Smile

Here she is, "The Girl With the Perfect Smile," pretty Elaine Bitt of Lancaster, Pa., dental assistant. She was given the title by expert judges. More than 3,000 dentists gathered for the three-day annual meeting of the Philadelphia County Dental Society.

War News . . .

Powerful U.S. Naval Task Force meets and defeats portion of remnants of Japanese fleet in Japan's home waters. Over 100 Japanese planes destroyed in the action.

American Third and Seventh Armies completing mop-up of last German forces west of the Rhine. Bag of prisoners indicates that the Nazi armies are breaking up rapidly, and that all German resistance is crumbling. Experts predict end of the war in Europe in a few weeks.

Russians five miles from Danzig and closing in on Stettin and remnants east of the Oder.

Allied planes are leveling Nazi cities in unprecedented air blows.

Japan has closed schools for a year, and evacuating cities.

Memorial Window

A Memorial Window was unveiled at the St. James Methodist Church in Richmond, Va., on Sunday morning, March 18, in memory of the late Luther B. Pittman, who for twenty years was superintendent of the Sunday School of that church. The window was presented by the Mispah Bible Class of the St. James Sunday School. Among the speakers on the occasion of its presentation was N. R. Featherston, of Appomattox.

Mrs. Willia nPitzer Gills, Mrs. James Alexander Conner, and N. R. Featherston attended the exercises. Mr. Pittman's widow was Miss Lucy Gills, daughter of the late William Pitzer Gills, of Appomattox.

Present Plays At Evergreen

Three one- act plays, entitled, Safety, March Wind, and In A Dutch Flower, will be given by the pupils at the Evergreen school on Friday, March 30, at 8 o'clock.

Admission will be 15 cents and 25 cents.

L. Preston Collins, of Marion, announces as candidate for lieutenant governor.

Give to the Red Cross today!

Darden Asks Changes in State Laws

Richmond, Va., March 21.- In a twenty-minute message, delivered at the special session of the General Assembl; on Monday in which he recommended a Constitutional Convention composed of forty members, to convene about May 1st, to provide means whereby Virginians in the fighting forces may participate in State and local elections, Governor Darden announced his intention of recommending to the regular session of the General Assembly next January that they submit to the people the question of retaining the poll tax as a prerequisite to voting; recommended a thorough overhauling of the absentee voters law; the building of a "first oTender farm"; setting up a Parden Board; changes in the banking and insurance laws to allow participation in the rehabilitation plans for returning service people and a far-reaching educational program putting into effect certain non-controversial recommendations of the Virginia Education Commission calling for an immediate appropriation of $8,258,990.

On the question of the poll tax the Governor said "You are aware of course, of the sharp differences of opinion which exist in the Commonwealth over the imposition of the poll tax as a prerequisite to voting. It is my intention to recommend to the Assembly, when it convenes in January, that the question be submitted to the people for their determination. Before the repeal resolution is submitted a study should be made of the changes thought desirable. This will enable the people to know what qualifications, if any, are to be required of those who participate in our elections in event the poll tax is repealed as a voting requirement. If it is deemed advisable to write these qualifications in the Constitution they should be submitted along with the provision for the repeal of the tax."

Among his recommendations in the educational field was that the State increase the teacher unit contribution for the coming year to $1,050 per unit (it is now $900 per unit; that increased appropriations be made in home economics, Agriculture, Distributive Education, Trade and Industrial Education centers; that six additional centers for adult counseling be established as quickly as possible, and that $100,000 be set aside for the production of motion picture films and slides, under the direction of the State Board of Education to be used in visual aid training in the schools.

Red Cross Fund

Progress is being made toward reaching the goal in the Red Cross drive. Incomplete reports show a total at present of about $2,500.

Co. Budget

The proposed county budget for the fiscal year is published in today's issue. The budget will be acted on at the next meeting of the supervisors.

A. H. S. Chapel

The Sophomore Class of Appomattox High School, under the direction of Mrs. Brown, presented in chapel yesterday a play entitled, "Oh, Say Can You Sing?" The cast included: Polly Conner, Ann Taylor, Joyce Wingfield, E. E. Thornhill, Thomas Mayberry, and Fred Lawson.

It was announced by Mr. Crawley that the school contributed $50.00 to the Red Cross Drive.

Vera League

The Vera Community League will meet tonight, at the school.

Send in your Red Cross contribution today.
